Claim

What I claim is my invention is: Virtual Reality into fortran plus matrix;
(Provisional Patent #60/128,908).

Will create a situation and use a situation in which an outcome will be
created.

To continue, to have an item in Virtual Reality and a juxtaposition matrix
active to a point where they would coincide. This coinciding is the final result of
"Virtual Reality into fourtran plus matrix," Provisional Patent #60/128,908.
